**You Can't Have Clean Food
Unless You Have a Clean
Refrigerator**

YOU wouldn't, of course, eat anything but clean food. Yet food cannot be clean that has been in an unsanitary refrigerator. A bad odor in your refrigerator is always a danger signal.

Zinc or galvanized iron linings for refrigerators are unsanitary. Even though coated with white paint or enamel, they soon get stained and discolored. Worse still cracks and scratches develop which fill with grease and food particles. Thus germs are fostered in a most unsanitary condition.

A Leonard Cleanable is made with a one-piece porcelain lining, smooth, pure white, everlasting, just like a piece of china, except that it is unbreakable. This porcelain you cannot possibly scratch, nor even with a steel knife blade. It has no cracks or crevices in which grease or germs may collect. It is as clean as a china dish and as easily kept clean.

For your family's sake, learn about the Leonard Cleanable. We want to tell you its many good qualities. Call and get an interesting booklet, "The Care of Refrigerators." It contains many good points you ought to know.

The largest bequests were the sum of £10,000 to his nephew, Henry Hamilton Kitchener, and the Birrione Park estate and all lands in Kent county to his nephew, Commander Franklin Chichester Kitchener, of the royal navy, son of the new earl.

To Colonel Oswald A. O. Fitzgerald, Lord Kitchener's personal military secretary, who was drowned with the field marshal, was given all Kitchener's lands in British East Africa, amounting to about £100,000, with plantations, etc.

The will was dated November 1, 1914.

**Refugees Must Remain
Aboard Ship Until the
Quarantine Period Ends**

(By Evening Herald Leased Wire)
Washington, June 29.—Many of the 1,200 refugees from Mexico at Galveston on the navy cutter Dixie and other vessels probably will be compelled to stay aboard ship for a week. Assistant Secretary Newton of the treasury, in charge of the public health service, announced today that women, children and invalids would be allowed to land after medical examination, but that delay could not be avoided in other cases, because the immigration barracks and quarantine station at Galveston can accommodate only about 100.

(By Evening Herald Leased Wire)
San Antonio, Tex., June 29.—Anticipating preparations to preserve the health of troops now moving to the border and to care for the sick and those who might be wounded in event of a clash with Mexico, practical steps have been considered.

Thousands capable of caring for patients, each already are equipped at San Antonio and at least three others are in a similar case at Fort Bliss at Douglas, Ariz.

Arrangements have been made in the medical office base hospitals at Fort Bliss, near Tucson, Eagle Pass and Nogales. Camp hospitals have been established along the border.

A report reached Port San Juan, border late last month that bandits had made a raid on the border guard's MacDowell, Tex., fort, but later it was learned that the report was untrue and grew out of a fight between the two soldiers of the guard in which both were wounded.

The comptroller also gave the opinion that government employees who enlisted in the national guard are entitled to full pay from their civil service for the first thirty days of their service, except that the combined salaries of officers will be subject to the \$2,000 limitation provided by law.

We have been literally deluged with telegrams and letters with applications from men who wish to join a volunteer division.
